CureFest for Childhood Cancer
Sylvan Theater, Washington, DC
Sunday, September 21, 2025

DIAMOND SPONSOR

Arms Wide Open Childhood Cancer Foundation is committed to funding pediatric cancer research, supporting families who are suffering hardship due to their child's cancer diagnosis both financially and emotionally, educating the general public, raising awareness globally and uniting the childhood cancer community.

Moreover, Arms Wide Open is helping transform the childhood cancer landscape through their many initiatives, such as their Emmy-Award winning documentaries and awareness campaign, The Truth 365, which gives all children with cancer a voice, and by hosting, CureFest, an annual event in Washington, DC, that brings foundations and advocates together to speak as one voice on behalf of all children fighting cancer.

Rally Recognition:

We know how important it is for you and your child to be part of a loving community, finding support and comfort. Also, we know how important it is for your community to help you. We are here for you, your family and your friends.

Rally Foundation for Childhood Cancer Research (Rally) was founded in 2005 by Dean Crowe, who watched her friend's child battle brain cancer. She asked, "What can I do to help?"

Rally started with a simple question. Now, how can we help you and your family?

SUPER SAM
FOUNDATION®
FIGHTING CHILDHOOD CANCER

Learn More at

At the **Super Sam Foundation**, we are determined to fight for **All the Kids**. As a 501(c)3 foundation, we raise awareness, fund critical research, and support families in the fight.

Through our **Comfort Packs**, we provide heroes and siblings with tools, strength, and comfort to face each battle head-on.

Alongside **Ava's Avengers**, we shine a light on the sibling experience—**because cancer is a family fight**, and every voice matters in the journey toward hope and healing.

AVA'S AVENGERS
SUPER SAM FOUNDATION®

Ava's Avengers stand together—because cancer is a family fight. We empower siblings to use their voice, raise awareness, and bring hope to every child and family facing childhood cancer.

HIGHLY EFFECTIVE EASY TO USE PAIN FREE

Created for the patient, by a patient

Jamie created Port Protect after receiving infusions that required a Chest Port to manage her illnesses. Jamie's port hurt every time it was accessed. Her doctor encouraged her to try lidocaine cream with Saran Wrap, which proved to be messy and ineffective. Jamie searched for an existing product designed to facilitate the infusion prep process, with no luck, so she decided to create Port Protect.

Port Protect Users love how fast, easy and convenient the product is. One child calls it a "hug for his port," while others call it their "brave protector." Jamie knows first hand the challenges of living with chronic pain and fatigue. Creating Port Protect has been deeply gratifying as it continues to make a meaningful difference for patients facing health battles they never chose.

Port Protect is one time use, patented product made of a hypoallergenic adhesive. Patients should consult with their doctor before using Port Protect and understand that they assume any associated risks with the product.
